NEW SERIES, VOLUME 41

M

UNPUBLISHED MUSIC

The Catalog of Copyright Entries is published in four Parts. Part 3, containing the entries for musical compositions, formerly issued monthly but issued as an annual for 1946, is divided into four sections: Unpublished Music, Published Music, Renewal Registrations made for musical compositions under the provisions of section 23 of the act of March 4, 1909 (17 U. S. C. 23) and Title Index.

This section of the Catalog, Group 1, contains the completed registrations for Unpublished Music for the calendar year 1946. Entry is under composer, with cross-references from pseudonyms and nicknames. In each entry the names are given in the fullest form known, and when a name is repeated the forenames are abbreviated to initials. Unless there is an indication to the contrary, the name under which the registration is entered is understood to be that of the composer of the music, and his name is not repeated in the description of the item.

Copyright data is given in the following order: Copyright symbol "©"; date of receipt in the Copyright Office of one copy of the unpublished work; the name and address of the claimant; "EU", indicating an unpublished registration in Class E; and the registration number. Dates are given in the order of month, day, year.

Section 56 of the Act of March 4, 1909 (17 U. S. C. 56) provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."
